Francesca Giardine

giardine@illinois.edu | Google Scholar | Personal Website

Education

Ph.D. **University of California, Berkeley** May 2026
Doctor of Philosophy in Electrical Engineering and Computer Sciences
Dissertation: *"Analysis and Operation of Flying Capacitor Multilevel Converters: Single-Phase Applications and Fundamental Electromagnetic Interference Scaling"*
Advisor: Dr. Robert Pilawa-Podgurski

B.S. **Smith College** May 2020
Bachelor of Science in Engineering Science & Mathematics and Statistics
Summa Cum Laude

Honors and Awards

Fellowships

National Science Foundation Graduate Research Fellowship Sept. 2022 – Sept. 2025
- Tuition and stipend for 3 years of graduate study in STEM ($148,000 total).

Hearts to Humanity Eternal Graduate Research Grant Sept. 2023 – Sept. 2024
- $10,000 grant for independent research.

Berkeley EECS Department Fellowship Aug. 2020
- Semester-long fellowship for select incoming students.

Recognitions

Rising Stars in EECS October 2025
- Selective 2-day program organized by MIT and Boston University to provide preparation for junior faculty positions.

WiscProf Future Faculty Program Participant May 2025
- Selective 4-day program sponsored by the University of Wisconsin, Madison providing training for faculty positions in academia.

Best Paper Award, ECCE Europe 2024 September 2024
- Awarded to 10 of 300 papers presented at ECCE Europe for paper [C4].

NextProf Nexus Future Faculty Program Participant August 2024
- Selective program sponsored by the University of Michigan, UC Berkeley, and Georgia Tech giving participants the opportunity to explore and prepare for a faculty position in academia.

Adeline Devor Penberthy, Class of 1945, Memorial Prize May 2020
- Awarded to an undergraduate engineering major for academic excellence in engineering and outstanding contributions toward building a community of learners within the Smith College Picker Engineering Program.

Research Experience

Postdoctoral Research Associate in the Stillwell Power Group Aug. 2026 – Present
University of Illinois Urbana-Champaign Urbana, IL
- Developing electromagnetic interference (EMI) test setup for the power research area, with an emphasis on long-term usability.
- Analyzing EMI in power converters for electrified transportation.
- Mentoring student research projects, specifically in EMI and isolated power converters.

Pilawa Research Group Aug. 2020 – May 2026
University of California, Berkeley Berkeley, CA

- Studied Electromagnetic interference for the flying capacitor multilevel converter.
- Formulated modulation technique to improve efficiency and electromagnetic interference of flying capacitor multilevel inverters.
- Simulated and designed advanced hybrid switched-capacitor converters for use in DC-AC grid-connected systems.

Power Electronic Device Characterization Internship June 2023 – Aug. 2023
National Laboratory of the Rockies Golden, CO

- Designed a test setup for switch characterization for power electronics.
- Performed detailed simulation, printed circuit board layout, and investigated advanced sensing techniques to achieve high-bandwidth performance.

Researcher in the Renewable and Appropriate Energy Lab July 2020 – Aug. 2020
University of California, Berkeley Berkeley, CA

- Extended research beginning in the SUPERB REU under Professor Daniel Kammen in the Energy Resources Group.
- Performed statistical and spatial analyses in Python and GIS to isolate candidate communities for microgrid development.

SUPERB Research Experience for Undergraduates June 2019 – Aug. 2019
University of California, Berkeley Berkeley, CA

- Analyzed geospatial data in R and GIS to classify community types in California with emphasis on environmental predictors.
- Selected as the sole student from the SUPERB REU to present research at NSF REU Research Symposium in Alexandria, VA, in October 2019.

Capstone to Work Research Team Sept. 2018 – May 2020
Smith College Northampton, MA

- Reviewed qualitative and quantitative data from a large pool of first year engineering employees to analyze the impacts of the engineering capstone experience on employment after college.

*Denotes undergraduate student

Teaching

University of California, Berkeley — Berkeley, CA

Graduate Student Instructor — Spring 2024, 2025

- EE 108: Introduction to Electric Power and Renewable Energy

Guest Lecturer

- EE 113B: Power Electronics Design – "Electromagnetic Interference" — April 7, 2026

Smith College — Northampton, MA

Engineering Master Tutor — Spring 2019, Fall 2019, Spring 2020

- Provided targeted course support in Engineering Circuit Theory (EGR 220), Engineering Mechanics (EGR 270), Thermodynamics (EGR 290), and Fluid Mechanics (EGR 374).

Quantitative Tutor — Fall 2018

- General campus support in math and STEM coursework (Calculus I-III, statistics).

Professional Development

Scholarship and Teaching for Engineering Postdocs program (UIUC) — Fall 2026 - Spring 2027

Certificate in Teaching and Learning in Higher Education (UC Berkeley) — Fall 2025

Mentoring

University of Illinois Urbana-Champaign — Urbana, IL

Jay Lee (Undergraduate) — September 2026 – Present

- Ripple-Free Multilevel Power Conversion

Abhinav Srinivasan (Undergraduate) — September 2026 – Present

- 800 V Power Conversion for Datacenters

Charlie Gunderson (Undergraduate) — September 2026 – Present

- Coupled Inductors for High-Performance Converter Design

University of California, Berkeley — Berkeley, CA

Jack Armstrong (Undergraduate/Graduate, *now pursuing Ph.D at UC Berkeley*) — May 2025 – Present

- Control for a High-Performance Totem-Pole DC-AC/AC-DC Converter [C11]
- High Performance Active Capacitor for DC-Link Ripple Reduction

Stephanie Schaupp (Undergraduate) — September 2025 – May 2026

- High Voltage Safety Enclosure Development

Yayun Zhao (Undergraduate, *now pursuing Ph.D at UT Austin*) — October 2024 – March 2026

- Design of a High-Performance Totem-Pole DC-AC/AC-DC Converter [C11]

Nikhil Ograin (Undergraduate, *now at Apple*) — September 2024 – May 2025

- A Resonant Flying Capacitor Multilevel Inverter

Service and Leadership

University of California, Berkeley — Berkeley, CA

IEEE Power and Energy Society Student Chapter — Jan. 2021 – Dec. 2025

- 2023: Chair
- 2022, 2024: Vice Chair
- 2021: Member-at-Large

Berkeley EECS Graduate Admissions Reader — 2023, 2024

EECS Graduate Student Association Committee Member — Sept. 2021 – Sept. 2022

Manuscript Reviewer — 2022 – Present

- IEEE Transactions on Power Electronics
- IEEE Journal of Emerging and Selected Topics in Industrial Electronics
- IEEE Applied Power Electronics Conference
- IEEE Energy Conversion Congress and Exposition
